

BUSINESS CLASS PHONE SERVICE

RELIABLE, CLEAR CONNECTION
AT A LOW MONTHLY RATE

KEEP YOUR BUSINESS RUNNING WITH DTE'S RELIABLE PHONE SERVICE AT A GREAT MONTHLY RATE.

Our flexible, flat-rate plans for local, in-state and national calling combined with usage based international calling let you choose the service that is right for your business. Plus, most of our calling features are included at no extra cost so you can enjoy the benefit of getting all your communication services from a single provider. Our business phone service may be used with your existing telephone numbers and equipment saving you time and money.

PRIMARY RATE SERVICES (PRI)

DTE's Primary Rate (PRI) service can provide an efficient and flexible connection for your businesses voice communications. Use PRI service to connect your communications system to the telephone network allowing for multiple telephone numbers, caller ID and advanced calling features all at a much lower cost than other traditional solutions. With DTE's PRI service, small and large businesses alike can take advantage of the following benefits:

- Up to 23 voice channels available to support your voice traffic
- Capable of direct inward/outward dialing numbers (DIDs)
- Advanced calling features such as Caller ID and Call Forwarding
- If communications is your primary need, use of PRI rather than standard voice trunks may result in significant cost savings

PRI service from DTE is a low cost, highly efficient, high-speed choice for your voice traffic. This all-digital communications option will improve your network performance and trunking efficiency while supporting advanced calling features such as Caller ID.
