

HIGH-PERFORMANCE WI-FI, AND SO MUCH MORE

GET THE SMART HOME EXPERIENCE YOU DESERVE

FAST AND RELIABLE HOME WI-FI IT'S WHAT WE ALL WANT, ESPECIALLY WITH THE POPULARITY OF BANDWIDTH-HUNGRY APPLICATIONS, LIKE HD STREAMING. IN TODAY'S INCREASINGLY COMPLICATED SMART HOMES, SPEED AND COVERAGE ARE JUST THE BEGINNING. IF YOU WANT THE BEST EXPERIENCE, YOU NEED MORE SIMPLICITY AND MORE CONTROL AT YOUR FINGERTIPS.

WHY SHOULDN'T YOUR SMART HOME BE ALL THIS AND MORE?

GIGASPIRE BLAST:

TAKING SMART HOME PERFORMANCE AND CONTROL TO ANOTHER LEVEL

The GigaSpire BLAST is a next-generation smart home system. Leveraging the latest advancements in Wi-Fi technology, including the 802.11ax Wi-Fi standard (also known as 'Wi-Fi 6'), it combines blazing-fast speeds with whole-home coverage to give you an unrivaled online experience. Whether you are streaming HD video on multiple devices, uploading a big presentation for work, or gaming online with friends, the GigaSpire BLAST has got you covered. The Blast is not a typical Wi-Fi gateway—it is a command center for your entire smart home experience.

WHY GIGASPIRE BLAST?

- Connect virtually any smart home device, regardless of the wireless technology required
- The same great Wi-Fi quality everywhere you roam in your home
- Easy to install, activate and maintain

REMOTE MANAGEMENT WHEN YOU NEED IT

If you need additional help with any technical issues, we've got you covered with sophisticated remote monitoring and diagnostics that help us identify and resolve any problems you may be experiencing quickly – and, in most cases, without having to send a technician to your home, saving you time and money.

Our experienced customer support representatives can see which of your devices are connected, which ones are having issues and help you troubleshoot and solve the problem quickly. In fact, we can perform a wide range of diagnostics to make sure you are getting the best possible service.

- **Uptime of your GigaSpire BLAST** – Is your gateway functioning correctly or powered on consistently?
- **Interference on Wi-Fi channels** – Make sure other devices are not interfering with your Wi-Fi signal.
- **Internet errors** – If your GigaSpire BLAST or your Internet connection is not strong or is malfunctioning, we can monitor recent and current errors.
- **Ethernet ports functioning** – Is a device hardwired directly to your GigaSpire BLAST? Is the Ethernet port functioning correctly?
- **Connected devices** – We can make sure your devices are connected to the Internet and receiving a strong Wi-Fi signal.
- **Password and setting changes** – If you need assistance, we can help you by changing your Wi-Fi password or wireless settings from our office.

BLAZING SPEEDS AND WHOLE-HOME COVERAGE

With multi-Gigabit Wi-Fi speeds, the GigaSpire BLAST provides more than enough bandwidth for everyone in your household. And, no matter how many devices are connected at the same time, everyone enjoys the same outstanding Wi-Fi performance. Based on the newest Wi-Fi 6 standard, the GigaSpire BLAST provides longer range, higher efficiency, and is less impacted by interference from other nearby Wi-Fi gateways. The GigaSpire BLAST also has a Gigabit Ethernet port so you can connect a wired multimedia device for rapid data sharing across your network. The USB port on the GigaSpire BLAST can be used to provide additional connectivity or to connect portable storage devices.

THE LATEST TECHNOLOGY. THE BEST PERFORMANCE.

Not all Wi-Fi is created equal. The GigaSpire BLAST provides the best Wi-Fi available and adds exciting new features to help you manage your smart home with ease.

SMART HOME PROTOCOL SUPPORT

The GigaSpire BLAST supports the most popular smart device protocols—like Bluetooth, Zigbee, and Z-Wave—so you can connect the latest and greatest smart devices to the network hassle-free.

WI-FI 6

802.11ax is the most advanced Wi-Fi standard yet. It is faster and optimized for performance in today's smart home environments.

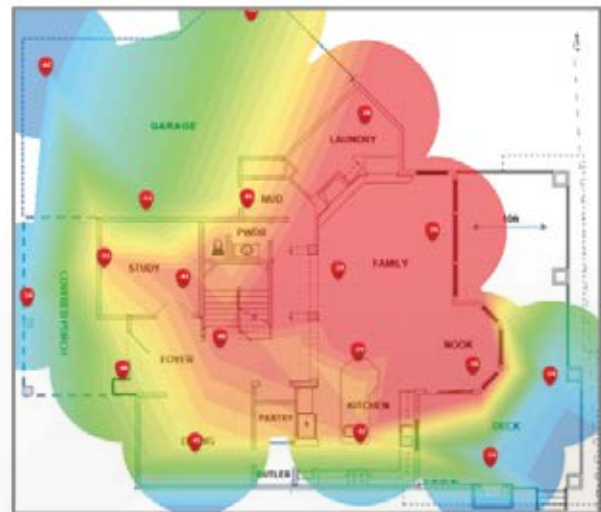

DUAL-BAND SUPPORT

Dual-band support means that the GigaSpire BLAST lets you take advantage of all the capabilities of Wi-Fi 6 using both the 2.4 GHz and 5 GHz bands. With 8x8 at 5 GHz and 4x4 at 2.4 GHz, GigaSpire BLAST is the most powerful dual-band Wi-Fi device in the industry.
